

Price History

A guide to price history: the last price on sales and purchase lines, the history, using the last price, the product buttons and access rights.

1. Start here

In plain words: "What did we charge them last time?" and "What did this vendor charge us?" are asked on every quotation and every purchase order, and the answer is hidden in old orders.

Price History on Orders puts it **on the line**: the **last price** this customer paid (or this vendor charged) for the product, how your price compares in **percent**, and a click to the **full history**.

Quotation S00473

Customer: Northland Clinic, Boston | Expiration: Nov 22 | Payment Terms: net30

Order Lines	Product	Quantity	Unit Price	Last price	vs last %	Total
1	Laptop 14" Business	2.00	\$ 1,100.00	\$ 1,100.00	-0.75	\$ 2,200.00
2	USB-C Docking Station	2.00	\$ 120.00	\$ 120.00	-5.75	\$ 240.00
3	Wireless Mouse	5.00	\$ 18.00	\$ 20.00	-4.00	\$ 90.00
4	Standing Desk Pro	1.00	\$ 400.00	\$ 420.00	-5.00	\$ 400.00
5	Barcode Scanner	5.00	\$ 176.00	\$ 160.00	-7.41	\$ 880.00

Last price on every line

History with this customer

Date	Order	Quantity	Unit Price	Subtotal	Amount Due	Balance
Oct 10, 2020	50100	Hardware Order	5.00	\$ 1,100.00	\$ 1,100.00	\$ 1,100.00
Oct 16, 2020	50140	Hardware Order	5.00	\$ 1,100.00	\$ 1,100.00	\$ 1,100.00
Oct 16, 2020	50140	Hardware Order	5.00	\$ 1,100.00	\$ 1,100.00	\$ 1,100.00

						\$ 11,000.00

History with this customer

Purchase Order

Product	Quantity	Unit Price	Last price	vs last %
Laptop 14" Business	5.00	\$ 800.00	\$ 800.00	-2.00
USB-C Docking Station	10.00	\$ 80.00	\$ 80.00	-1.75
Wireless Mouse	20.00	\$ 14.00	\$ 14.00	-5.75

Ordered Amount: \$ 6,400.00
Tax 10%: \$ 640.00
Total: \$ 7,040.00

The same on purchases

The last price on a quotation, the history with the customer and the same on a purchase order.

Tip: Nothing to configure: install it and the columns are on the order lines.

2. What you get

Feature	What it does
Last price	On every sales order line: the unit price of the last confirmed order of this customer for the product, in the unit of the line.
Against last	The difference in percent: green when you charge more, red when less (the other way on purchases).
Purchases	The same on purchase order lines, with the last price of the vendor.
History	A button on the line opens the confirmed orders of this customer or vendor for the product, newest first.
All customers	Managers can open the history of the product with every customer or vendor.
Use the last price	A button on a quotation line puts the last price in the unit price.
On the product	Sales prices and Purchase prices buttons list every confirmed line of the product (managers).
Right companies	The contacts of a company share its history; each company sees its own orders.
Arabic	Everything is translated and works right to left.

3. Requirements

Item	Details
Odoo	19.0 (Community or Enterprise)
Apps needed	Sales (sale) and Purchase (purchase)
License	OPL-1 (Odoo Proprietary License v1.0)

4. Install

- 1 Unzip the package. Inside is `taqnix_price_history.zip` ; unzip it to get the folder `taqnix_price_history` .
- 2 Copy the folder into one of the `addons_path` folders of your Odoo server and restart Odoo.
- 3 Log in as an administrator, activate **Developer mode**, open **Apps** and press **Update Apps List**.
- 4 Remove the "Apps" filter, search **Price History on Orders** and press **Install**.

```
# or from the command line
./odoo-bin -c odoo.conf -d YOUR_DATABASE -i taqnix_price_history --stop-after-init
```

5. On a quotation

In plain words: Open a quotation or a sales order. Next to the unit price you see **Last price** and **vs last %**. Optional columns give the date and the number of the last order: use the column selector.

								\$ 11,804.40	

The history of the laptop with this customer, newest first.

Tip: The last price is the last *confirmed* order. Quotations, cancelled orders and the order you are working on are not counted.

6. On a purchase order

In plain words: The same columns on the lines of an RFQ or purchase order, with the last price of this vendor. A price above the last one is shown in red.

								\$ 14,088.00	

The sales prices of a product with all the customers.

8. How it is computed

Rule	Detail
Same product	The product variant of the line.
Same partner	The same customer or vendor, and the other contacts of its company.
Confirmed only	Sales orders and purchase orders that are confirmed; not quotations, not cancelled ones.
Last by date	The latest order date wins, not the entry order.
Unit of measure	The price is brought to the unit of your line (dozen to unit, for example).
Currency	A price in another currency is shown as it was, with no percent.

9. Who can do what

Who	Can
Sales and purchase users	See the last price of the partner of the order, open its history and use the last price.
Sales and purchase managers (group Price history: all customers and vendors)	Also open the history with all the customers and vendors, and from the product form.

10. Arabic and right to left

الشروط والأحكام..

11. Limits

12. For developers

In plain words: Skip this chapter if you only use the module.

```
line.tx_last_price, line.tx_last_date, line.tx_price_diff      # on sale.order.line and pu
line.action_tx_use_last_price()
```

13. Troubleshooting

Problem	What to do
The last price is empty	This customer has no confirmed order for the product (or only quotations).
"The last price is in EUR, not in the currency of this order"	Use another price; the last price was in a different currency.
I do not see the users icon	It is for managers (group Price history: all customers and vendors).
I do not see the columns	Open the column selector on the order lines and tick them.

14. Updating and removing

Replace the folder with the new version, restart Odoo and run `-u taqnix_price_history` . Nothing is stored apart from the order date of lines, which is a copy.

15. Support

Installation help and bug fixes are included for 6 months, with lifetime updates. Contact us through the marketplace page where you bought the module or write to **support@taqnix.com** with your Odoo version and a screenshot.

Changelog

1.0.0 – Initial release

- Last price of the customer on sales order lines, of the vendor on purchase order lines
- Difference in percent, units of measure and currencies handled
- History list of a product with the partner, all partners for managers
- Use the last price on quotations
- Sales and purchase price buttons on the product form
- Arabic translation, automated tests
