

RFQ Comparison

A guide to the comparison: the list and the vendors, the grid and the prices, the award, the confirmation, the sheet and the analysis.

1. Start here

In plain words: Three vendors answered your request for quotation, each with different prices, delivery dates and payment terms. Which one wins? **RFQ Comparison** puts everything on **one grid** in Odoo Community: a draft **RFQ is created for each vendor** from a single list of products, the **lowest price of each line** is highlighted, you **award line by line** or to one vendor, and the winning RFQs are confirmed with only the lines they won.

Product	Qty	Nordic Office Supply PO0393	Delta Furniture Co. PO0391	Prime Workspace Ltd PO0392
Ergonomic Office Chair	40.00	\$ 112.00	\$ 104.00 ✓	\$ 108.00

Total: the lowest price of the line (20000) awarded

The comparison sheet

Purchase Order PO0393				
Vendor: Nordic Office Supply		Confirmation Date: Oct 25, 9:58 PM		
Vendor Reference: 12345678901234		Expected Arrival: Nov 20, 2:53 PM		
Comparison: CMF000000004		☐ Ask confirmation		
Order to: 1		My Company: Nordics		
Products		Other Information		
Product	Quantity	Received	Billed	Unit Price Taxes

Only the awarded line

The quotes side by side, the comparison sheet, and the confirmed order with only the awarded line.

Tip: The saving is counted against the highest quotation of each line, so you can show what the comparison was worth.

2. What you get

Feature	What it does
One list, many RFQs	List the products once and invite the vendors: a draft RFQ is created for each of them.
The grid	The prices of all the vendors side by side, with the totals, the payment terms and the expected arrival.
The lowest price	The lowest net price of each line is found for you (discounts and currencies counted).
Award	Per line, to the cheapest of each line, or everything to the cheapest vendor.
Confirm	The winning RFQs keep only their awarded lines and are confirmed; the others are cancelled.
Saving	The gap between the highest quotation and the awarded price, times the quantity.
Sheet	A PDF comparison sheet to attach to the file or send for approval.
Analysis	A pivot of the prices by product and vendor, over all the comparisons.
Links	The RFQ shows its comparison; the comparison opens its RFQs.
Arabic	Everything is translated and works right to left.

3. Requirements

Item	Details
Odoo	19.0 (Community or Enterprise)
Apps needed	Purchase (purchase)
License	OPL-1 (Odoo Proprietary License v1.0)

4. Install

- 1 Unzip the package. Inside is `taqnix_rfq_comparison.zip` ; unzip it to get the folder `taqnix_rfq_comparison` .
- 2 Copy the folder into one of the `addons_path` folders of your Odoo server and restart Odoo.
- 3 Log in as an administrator, activate **Developer mode**, open **Apps** and press **Update Apps List**.
- 4 Remove the "Apps" filter, search **RFQ Comparison** and press **Install**.

or from the command line

```
./odoo-bin -c odoo.conf -d YOUR_DATABASE -i taqnix_rfq_comparison --stop-after-init
```

5. Start a comparison

In plain words: Open **Purchase** → **Orders** → **RFQ comparisons** and click **New**. Give it a subject, add the **products** with the quantities, invite at least two **vendors**, and (if you want) the date you need the goods. Then click **Create the RFQs**.

Send Furniture for the third floor → Furniture for the third floor (Subject)

The comparison before the RFQs are created.

Field	Meaning
Subject	A name for the purchase, for example Furniture for the third floor.
Vendors	The vendors invited to quote. A draft RFQ is created for each.
Needed by	The expected arrival put on the lines of the RFQs.
Products	What you want to buy and how many.

Tip: The RFQs are ordinary Odoo RFQs: send them to the vendors from the Purchase app as usual, with the vendor prices coming from your vendor pricelists when you have them.

6. Enter the prices

In plain words: When a vendor answers, put the prices on the **Prices and award** tab (or on the RFQ itself: both stay in step). You can also give a **discount** and the **delivery date** of each line. A line without a price is ignored for the lowest price and shown as not quoted.

Send: Furniture for the third floor → Furniture for the third floor (Subject)

The Comparison tab: green is the awarded vendor of each line.

In plain words: The **Comparison** tab is the grid: one row for each product, one column for each vendor, the total of each vendor at the bottom with the payment terms and the expected arrival. Use **Refresh the prices** if you changed prices in a way the grid did not see.

7. Award

Button	What it does
Award the cheapest per line	Each line goes to the vendor with the lowest net price for it.
Award to the cheapest vendor	Everything goes to the vendor with the lowest total, among those who quoted every line.
Clear the award	Starts again.
The award switch on a price	Chooses by hand: one vendor per line, switching one on switches the others off.

In plain words: **Awarded total** and **Saving** are shown on the comparison as you choose.

8. Confirm the award

In plain words: **Confirm the award** needs every line awarded. The RFQs that won are **confirmed** with **only the lines they won**, the other RFQs are **cancelled**, and the comparison is **Awarded**: the prices stay on it as the history of the decision.

A comparison in an Arabic interface.

13. Limits

Limit	Detail
One line per product row	A line is awarded to one vendor only: the quantity is not split between vendors.
Taxes	The comparison uses the net price before tax.
Sending the RFQs	Done from the Purchase app as for any RFQ.
Purchase agreements	Not used: this is a lighter, grid-based comparison.

14. For developers

In plain words: Skip this chapter if you only use the module.

```
cmp = env['taqnix.rfq.comparison'].create({'title': 'Chairs', 'vendor_ids': [(6, 0, vendor_id)],
    'line_ids': [(0, 0, {'product_id': chair.id, 'quantity': 40})]})
cmp.action_create_rfqs()
# ... the vendors answer: the prices are on the quotations
cmp.action_award_cheapest()
cmp.action_apply()
```

15. Troubleshooting

Problem	What to do
Create the RFQs says to invite two vendors	A comparison needs at least two vendors.
Confirm the award says a line is missing	Award every line first.
A vendor cannot win a line	It gave no price for that product: the price is zero.
The grid does not show a price I typed on the RFQ	Click Refresh the prices.

16. Updating and removing

Replace the folder with the new version, restart Odoo and run `-u taqnix_rfq_comparison`. Your comparisons and the history of the awards are kept.

17. Support

Installation help and bug fixes are included for 6 months, with lifetime updates. Contact us through the marketplace page where you bought the module or write to **support@taqnix.com** with your Odoo version and a screenshot.

Changelog

1.0.0 – Initial release

- One RFQ per vendor from a single list of products
- The grid of the prices, the lowest price of each line
- Award per line, the cheapest per line, or all to the cheapest vendor
- Confirmation keeps only the awarded lines and cancels the other RFQs
- Savings, PDF comparison sheet, pivot analysis

- Arabic translation, automated tests
